

## FULL-DAY WORKSHOP ON FIRE TESTING, ASSESSMENT APPROACH AND PRODUCT CONFORMITY CERTIFICATION SCHEME FOR FIRE PRODUCT

Organized by  
Hong Kong Institute of Steel Construction  
Department of Civil and Environmental Engineering, The Hong Kong Polytechnic University

Supported by  
Fire Division, The Hong Kong Institution of Engineers

Date:	21 April 2017
Venue:	Room Y305, The Hong Kong Polytechnic University, Hungghom, Kowloon
Time	8:45 am (registration) for 9:15 am to 5:45 pm

### Scope and Objectives

This Product Conformity Certification Scheme (PCCS) for Fire Products aims to promote the quality of manufacture and supply of steel products. The Scheme ensures that all the certified products are quality controlled at various critical stages of manufacture and supply, from auditing of quality management system of production plants, initial prototype testing of products, technical inspection of manufacturing process, and subsequent surveillance visits and continual audit testing of products. It should be noted that in many advanced countries, most government departments, local regulators and authorities as well as national agencies require mandatory certifications of fire protection products for reasons of safety, health, environmental protection, fraud prevention and market fairness. Such requirements are often stipulated in their project specifications and procurement contracts. The Scheme adopts ISO 9001 for quality management system, ISO 17020 for inspection and ISO 17025 for testing schemes into one coordinated audit, ensuring conformity of the products at various critical stages of manufacture and supply. All the certified products are entitled to bear a certification mark together with relevant technical product description.

The workshop, which is tailor-made for building professionals to equip them with basic knowledge in the fire test and the fire assessment approach as well as the Product Conformity Certification Scheme (PCCS) for fire product and how to utilize the PCCS platform provided by HKISC.

The speaker of the workshop is Ir Dr. Dominic Yu and Dr. Lipman SZE, who are experts in the field.
