| Date:  | 26 July 2019 (Friday afternoon)                            |
| Venue: | Room TU107, The Hong Kong Polytechnic University, Hung Hom |
| Time   | 1:45 pm (registration) for 2:00 pm to 5:45 pm              |

### **Scope and Objectives**

Commodities including potential fire safety hazards such as inflammable substances are commonly stored in industrial buildings. Under the Dangerous Goods Ordinance (Cap 295), no person shall store any such substances in excess of their respective exempted quantities in any premises or place without a license issued by the Director of Fire Services.

These inflammable substances may comprise combustible building materials, building paints and more often, domestic wine and spirit.

The seminar is devised to provide requisite and essential background for building and fire professionals on the definition of dangerous goods (DG), the design and construction of DG stores as well as the application procedure to facilitate the trade in acquiring relevant DG licenses in buildings having regard to the dynamic nature of the industry and the temporary nature of the store.

HKISC is pleased to invite the prominent Dangerous Goods Expert Ir LEUNG Kam-tak to deliver the seminar who will share with the audience his ample and substantial work experience in the field.

### **Official Language**

English and Chinese will be the language medium of the seminar.
