*An International Journal*

Volume 6 Number 2

June 2010

CONTENTS

## Technical Papers

Design of Eccentrically Connected Cleat Plates in Compression

*X.E. Khoo, M. Perera and F. Albermani*

Behavior of L-Shaped Concrete-Filled Steel Stub Columns Under Axial Loading: Experiment

*Z.Y. Chen and Z.Y. Shen*

Experimental Studies of Load Capacities of Double-Layer Shoring Systems

*Jui-Lin Peng, Pao-Li Wang, Ying-Hua Huang and Tsung-Chieh Tsai*

Dynamic Numerical Simulation of Steel Frame-Typed Piers Installed with SMA Damping Devices Based on Multi-Linear One Dimensional Constitutive Model

*Xiao-Qun Luo, Hanbin Ge and Tsutomu Usami*

Influence of Thermal Insulation on The Energy Balance for Cold-Formed Buildings

*H. Gervásio, P. Santos, L. Simões da Silva and A.M.G. Lopes*

A Mixed Co-Rotational 3D Beam Element Formulation for Arbitrarily Large Rotations

*Z.X. Li and L. Vu-Quoc*

Thermal Response to Fire of Uniformly Insulated Steel Members: Background and Verification of The Formulation Recommended by Chinese Code CECS200

*Guo-Qiang Li and Chao Zhang*

Evaluation of the Remaining Shear Capacity in Corroded Steel I-Beams

*Y. Sharifi and R. Rahgozar*

## General Information

### *Advanced Steel Construction, an international journal*

#### **Aims and scope**

The International Journal of Advanced Steel Construction provides a platform for the publication and rapid dissemination of original and up-to-date research and technological developments in steel construction, design and analysis. Scope of research papers published in this journal includes but is not limited to theoretical and experimental research on elements, assemblages, systems, material, design philosophy and codification, standards, fabrication, projects of innovative nature and computer techniques. The journal is specifically tailored to channel the exchange of technological know-how between researchers and practitioners. Contributions from all aspects related to the recent developments of advanced steel construction are welcome.

#### **Instructions to authors**

**Submission of the manuscript.** Authors may submit double-spaced manuscripts preferably in MS Word by emailing to one of the chief editors as follows for arrangement of review. Alternatively papers can be submitted on a diskette to one of the chief editors.

Asian Pacific, African and organizing editor : Professor S.L. Chan, Email: ceslchan@polyu.edu.hk  
American editor : Professor W.F. Chen, Email: waifah@hawaii.edu  
European editor : Professor R. Zandonini, Email: riccardo\_zandonini@ing.unitn.it

All manuscripts submitted to the journal are recommended to accompany with a list of four potential reviewers suggested by the author(s). This list should include the complete name, address, telephone and fax numbers, email address, and at least five keywords that identify the expertise of each reviewer. This scheme will improve the process of review.

#### **Style of manuscript**

**General.** Author(s) should provide full postal and email addresses and fax number for correspondence. The manuscript including abstract, keywords, references, figures and tables should be in English with pages numbered and typed with double line spacing on single side of A4 or letter-sized paper. The front page of the article should contain:

- a) a short title (reflecting the content of the paper);
- b) all the name(s) and postal and email addresses of author(s) specifying the author to whom correspondence and proofs should be sent;
- c) an abstract of 100-200 words; and
- d) 5 to 8 keywords.

The paper must contain an introduction and a conclusion. The length of paper should not exceed 25 journal pages (approximately 15,000 words equivalents).

**Tables and figures.** Tables and figures including photographs should be typed, numbered consecutively in Arabic numerals and with short titles. They should be referred in the text as Figure 1, Table 2, etc. Originally drawn figures and photographs should be provided in a form suitable for photographic reproduction and reduction in the journal.

**Mathematical expressions and units.** The Systeme Internationale (SI) should be followed whenever possible. The numbers identifying the displayed mathematical expression should be referred to in the text as Eq. (1), Eq. (2).

**References.** References to published literature should be referred in the text, in the order of citation with Arabic numerals, by the last name(s) of the author(s) (e.g. Zandonini and Zanon [3]) or if more than three authors (e.g. Zandonini et al. [4]). References should be in English with occasional allowance of 1-2 exceptional references in local languages and reflect the current state-of-technology. Journal titles should be abbreviated in the style of the Word List of Scientific Periodicals. References should be cited in the following style [1, 2, 3].

Journal: [1] Chen, W.F. and Kishi, N., "Semi-rigid Steel Beam-to-column Connections, Data Base and Modelling", Journal of Structural Engineering, ASCE, 1989, Vol. 115, No. 1, pp. 105-119.

Book: [2] Chan, S.L. and Chui, P.P.T., "Non-linear Static and Cyclic Analysis of Semi-rigid Steel Frames", Elsevier Science, 2000.

Proceedings: [3] Zandonini, R. and Zanon, P., "Experimental Analysis of Steel Beams with Semi-rigid Joints", Proceedings of International Conference on Advances in Steel Structures, Hong Kong, 1996, Vol. 1, pp. 356-364.

**Proofs.** Proof will be sent to the corresponding author to correct any typesetting errors. Alternations to the original manuscript at this stage will not be accepted. Proofs should be returned within 48 hours of receipt by Express Mail, Fax or Email.

**Copyright.** Submission of an article to "Advanced Steel Construction" implies that it presents the original and unpublished work, and not under consideration for publication nor published elsewhere. On acceptance of a manuscript submitted, the copyright thereof is transferred to the publisher by the Transfer of Copyright Agreement and upon the acceptance of publication for the papers, the corresponding author must sign the form for Transfer of Copyright.

**Permission.** Quoting from this journal is granted provided that the customary acknowledgement is given to the source.

**Page charge and Reprints.** There will be no page charges if the length of paper is within the limit of 25 journal pages. A total of 30 free offprints will be supplied free of charge to the corresponding author. Purchasing orders for additional offprints can be made on order forms which will be sent to the authors. These instructions can be obtained at the Hong Kong Institute of Steel Construction, Journal website: <http://www.hkisc.org>

The International Journal of Advanced Steel Construction is published quarterly by non-profit making learnt society, The Hong Kong Institute of Steel Construction, c/o Department of Civil & Structural Engineering, The Hong Kong Polytechnic University, Hung Hom, Kowloon, Hong Kong.

**Disclaimer.** No responsibility is assumed for any injury and / or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein.

**Subscription inquiries and change of address.** Address all subscription inquiries and correspondence to Member Records, IJASC. Notify an address change as soon as possible. All communications should include both old and new addresses with zip codes and be accompanied by a mailing label from a recent issue. Allow six weeks for all changes to become effective.
